

*NOTES

The US Census Bureau revised counts for the 1970, 1980, and 1990 Census' for some municipalities and counties. However, the more detailed data were not revised (e.g., populations by age, race, sex, etc.). In order to maintain consistency, the tables and graphics contain the original Census numbers so that calculated percentages will equal 100% and the sum of the numbers will equal the totals.

The following are the Official Census numbers as corrected by the US Census Bureau:
